producing a commercial quality plug in means going above and beyond the minimal requirements needed to integrate with eclipse it means attending to all those details that contribute to the fit and polish of a commercial offering this comprehensive guide covers the entire process of plug in development including all the extra steps needed to achieve the highest quality results building on two internationally best selling previous editions eclipse plug ins third edition has been fully revised to reflect the powerful new capabilities of eclipse 3 4 leading eclipse experts eric clayberg and dan rubel present detailed practical coverage of every aspect of plug in development as well as specific proven solutions for the challenges developers are most likely to encounter all code examples relevant api listings diagrams and screen captures have been thoroughly updated to reflect both the eclipse 3 4 api and the latest java syntax in addition clayberg and rubel have completely revamped their popular favorites view case study reworking much of its content and recreating its code from scratch the authors carefully cover new functionality added to existing eclipse features such as views and editors and fully explain brand new features such as commands gef and pde build this extensively revised edition thoroughly covers eclipse s new preferences illuminates the powerful new eclipse command framework which replaces eclipse s older action framework presents extensive new discussions of using commands with views and editors introduces mylyn the new task focused interface that reduces information overload and simplifies multi tasking contains an all new chapter on using the graphical editing framework gef to build dynamic interactive graphical user interface elements walks you step by step through the entire pde build process shows how to create update sites with p2 which replaces eclipse s old update manager this book is designed for every experienced developer interested in extending the eclipse platform the rational software development platform or any other platform that supports eclipse plug ins

metaphor has been studied as a linguistic conceptual and communicative phenomenon in a wide range of disciplines including linguistics literary studies philosophy education political science media studies communication science psychology and neurosciences while the cognitive theory of metaphor has dominated the field since the cognitive turn in the 1980s alternatives have been proposed including the neural theory of metaphor the relevance theory approach the complex systems approach and the dynamic systems approach though studies are still often text based there is a growing body of research on visual metaphor multimodal metaphor and gestural metaphor as well as experimental research ranging from studies on metaphor processing and comprehension to studies in nlp and machine learning metaphor studies is thus a highly interdisciplinary field that encompasses a myriad of theories approaches and methods in current metaphor research each of these strands is

facing new challenges and offering new venues of cutting edge research using state of the art technologies researchers tend to focus on their own research areas and provide in depth views within the scope of their own disciplines metaphor studies do not seem to escape this phenomenon in spite of the large number of disciplines they draw on ranging from linguistics to psychology to the theory of science hence there seem to be little cooperation and communication across different fields methods and approaches having metaphors and figurative language as their main object of investigation this research topic aims to promote cross fertilization among the many research areas involved in metaphor studies thus bringing together different methods and perspectives and offering a comprehensive overview of the possible research scenarios
